EDUCATION

2012-2015
Bina Sarana Informatika
Diploma III Informatics & Computer Management / GPA: 3.30

ACHIEVEMENT

- Awarded the "Best Employee" award in the last company for outstanding achievements in completing several projects with optimal results.

EXPERTISE

Hard Skills:

- Microsoft Office (Word, Excel, PowerPoint)
- Front-End Development: HTML, CSS, JavaScript
- Back-End Development: Python (Flask, Django), PHP (CodeIgniter, Laravel)
- RESTful API: Swagger, Postman, Lumen
- Database Management: Oracle, PostgreSQL, MySQL
- Server and Deployment: Linux, Git, Docker, Nginx, Unicorn
- SSO Authentication: Keycloak
- Design: Adobe Photoshop

Soft Skills:

- Working with Teams and Individuals
- Time Management and Responsibility
- Fast Learning and Technical Communication Skills
- Detail, Creative and Problem Solving
- Thoroughness and Neatness

Language Skills:

- Indonesia (Active)
- English (Passive)

SUMMARY

A professional with more than 5 years of work experience in the IT programming field. Prioritizing work ethic, thoroughness, responsibility, and consistency in completing every job. Able to handle many applications in internal private and internal government. Have the ability to work together in a team, be organized at work, be hardworking, competent, and communicate well. Dedicated and highly motivated to develop professionally.

WORK EXPERIENCE

- | | |
|-----------------------|---|
| Nov 2019-
Present | PT. Nawastra Teknologi Nimpuna
Software Engineer (Fulltime) <ul style="list-style-type: none">Design and develop financial systems following the internal needs of Puskeu Polri to support efficient financial operations.Perform routine maintenance and repairs on the financial system to ensure optimal performance and system reliability.Develop the system using web programming languages such as HTML, CSS, and JavaScript (Jquery) to create a responsive user interface.Develop systems with Python, Django and Laravel frameworks to ensure the reliability and efficiency of application development.To support secure and structured data storage, manage and integrate the system with databases using DBMS such as Oracle, PostgreSQL, and MySQL. |
| Sep 2024-
Oct 2024 | Yotowawa Media Center
Programmer (Freelance) <ul style="list-style-type: none">Designing an Indonesian, Meher, and Woirata local language translator system to support local language preservation.Build a text-to-speech feature that converts text to voice in real time.Developed a multi-user interactive quiz with grading, quiz creation, timing, and sharing features.Used HTML, CSS, JavaScript (Jquery), CodeIgniter, and Python Django to optimize system functionality.Maintained and integrated MySQL and SQL Lite databases for secure and structured data storage. |
| Jul 2017-
Oct 2019 | NK Multimedia
Web Developer (Fulltime) <ul style="list-style-type: none">Design and develop a user-friendly marketing or e-commerce website to support online product sales.Create a website interface using HTML, CSS, and JavaScript (Jquery) to be responsive and easily accessible on various devices.Using the CodeIgniter framework to ensure efficient and well-structured website development.Added e-commerce features such as a shopping cart, online payment, and inventory management to support online business processes.Manage MySQL database for secure and organized product data, transactions, and customer information storage. |
| Oct 2018-
Mar 2019 | Tempat Pelelangan Ikan Muara Angke
Programmer (Freelance) <ul style="list-style-type: none">Developed and updated existing systems to improve functionality and operational efficiency.Completed phased system development in 5 terms according to the project plan and needs. |

- Utilized HTML, CSS, and JavaScript (Jquery) programming languages to create responsive and interactive web interfaces.
- Used CodeIgniter framework to ensure structured and manageable system development.
- Managing databases using MySQL to ensure secure and efficient data storage in the system.

Aug 2018-
Jan 2019

Digipro

PHP Programmer (Freelance)

- Develop and enhance existing systems to meet new needs and improve performance.
- Complete each system development task in stages according to priorities and targets set.
- Develop systems using native PHP to build lightweight and efficient applications.
- Manage databases with SQL Anywhere to ensure system data's security, integrity, and availability.
- Organize and execute system development processes in a structured manner to achieve results following specified standards.
